

Engineered for Safety

Pentalift Ultima Dock Shelter

Pentalift's Ultima Dock Shelter Model PS470 is uniquely designed for applications where full access to the rear door opening of the trailer is required. The trailer penetrates through the shelter curtains allowing them to seal on the outside of the trailer's body providing full access to the trailer door opening. This model replaces the traditional rigid side frames of a conventional shelter with a soft sided foam frame designed to take the incidental impact by a trailer without damage to the shelter frame. Also the Ultima Shelter is ideally suited for applications where space requirements at the loading dock are limited.

The Ultima Shelter provides the advantages of a rigid and flexible shelter in one design

Ultima Dock Shelter PS470 Design Features:

- Full width access to the trailer door opening
- Enviro-Green foam side frames designed to take the incidental impact of a trailer
- Raked head frame covered with translucent panels provides superior protection against rain, snow and ice build up
- Full aluminum trim on rigid head frame
- Header curtain with 30" drop and wear pleats
- Bottom corner draft pads
- Touch and Hold side curtains for easy replacement of fiberglass curtain stays

Design Applications:

- Fits doors up to 10'0" W x 10'6" H
- 18" to 24" unit projection
- 8" & 10" backboard widths based on unit projection
- Shelter dimensions up to 140" W x 132" H
- Designed to take incidental impact and provide maximum seal
- Excellent for high use dock and or where energy saving is key
- Enviro-Green foam side pad member compresses if incidental impact occurs by trailer

Full Access to Trailer Door Opening

Optional trailer hinge gap seal:

Effectively seals off the gap created by the trailer swing door hinge.

Note: Standard color for gap seal is black.

Shown in red for visual purposes only.

Impact Resistant: Soft side members are designed to accept incidental impacts from Truck / Trailers.

Ultima Dock Shelter PS470 Options:

- Wide Range of Fabric Choices available
- Pentalon II fabric for superior wear on corners of header curtain
